

## Science Resources

Useful Websites:

### BBC Bitesize

Bitesize have games and activities to check learning and links to short video clips from the BBC archive. Sections available for every topic from Year 1 to GCSE, a great free resource.

<https://www.bbc.co.uk/bitesize>

### Science Sparks

Science at home activities:

<https://www.science-sparks.com/>

### National Geographic

This child-friendly website is great to teach and inspire children and is filled with fun and unique activities – like How to Make a Paper Bowl Jellyfish!

<https://www.natgeokids.com/uk/> |

### Education City

All children have a login and password and can access science learning at any time.

<https://www.educationcity.com/>

And finally ..... You Tube links to experiments that can be done at home:

<https://www.servicesforeducation.co.uk/blog/advice-for-parents/5-experiments/>

# Supporting science learning at home

Feed their curiosity!

Play and explore

Look carefully and observe

Notice and discuss

Make comparisons

Ask and answer questions together

Make predictions and investigate together
